

2019 Events

Our season begins in March, and runs until October. Up until mid June we have a full range of plants available, and then we start the Chilli Festival season, showcasing our impressive range of chilli plants. We will always bring the widest possible range to each event, but contact us at least 2 days before the event if you want to be sure we will have the particular plant you are after.

Date	Location	Event

Saturday 15th - Sunday 16th June	Gilbert White House, Selborne	Unusual Plant Fair, 10am - 4pm

For the second half of our season we switch from our full range of plants to focus on the Chilli Festivals, alongside a range of Farmers Markets and Food Festivals. We grow over 200 varieties of chillies and peppers, many of them very unusual, and the plants at these events will be big, anything up to 3ft tall and smothered in chillies, as well as trailing varieties growing in hanging baskets with chillies cascading over the sides. Alongside this will be a wide range of herbs and our wide range of fresh produce, which allows you to try many of our fantastic tomatoes, peppers and chillies that are available as small plants in the springtime.
