

2022 Events

Our season begins in March, and runs until August. Up until mid June we have a full range of plants available, and then we start the Chilli Festival season, showcasing our impressive range of chilli plants. We will always bring the widest possible range to each event, but contact us at least 3 days before the event if you want to be sure we will have the particular plant you are after.

Friday 10th - Sunday 12th June	Stansted Park, Rowlands Castle	Garden Show, 10am - 5pm

For the second half of our season we switch from our full range of plants to focus on the Chilli Festivals, along with a few farmers markets. We grow over 150 varieties of chillies and peppers, many of them very unusual, and the plants at these events will be big, anything up to 3ft tall and smothered in chillies, as well as trailing varieties growing in hanging baskets with chillies cascading over the sides. Alongside this will be a wide range of herbs and fresh produce, which allows you to try many of our fantastic tomatoes, peppers and chillies that are available as small plants in the springtime.

Date	Location	Event
